- ✦ Operating in stealth mode for six months; revealed at Euronaval this month
- ✦ Headquartered in Rostock, Germany
- ✦ 30+ employees; technologists, surveyors, support and commercial
- ✦ Co-founded by Sören Themann and Daniel Esser - 40+years combined domain experience

OUTSMART THE THREAT

DIFFERENTIATORS /

- ✦ **Proven track record**
Only our name is new. We're already delivering for defence through our parent company whose reputation was built in offshore energy and science.
- ✦ **Targeted European focus**
FLANQ addresses specific needs in Europe's defence and security sector, aligned with EU/NATO goals for naval autonomy and interoperability.
- ✦ **Mission ready. Today**
Unlike many defence start-ups who are still at the concept stage, FLANQ - supported by our strategic partners - can contract and deliver solutions today.
- ✦ **FLANQ Onboard**
Leveraging our proprietary hardware and software stack, we're able to transform platform capability - the ones we supply and those you already operate.

- ✦ **Partnering for success**
We are small and agile and can move quickly to seize opportunities in the defence sector, partnering with tech suppliers and primes.
- ✦ **Speed to value**
Our commercial-off-the-shelf solutions help put battle winning technology into the hands of naval forces - at pace, on time and on budget.
- ✦ **Innovation through autonomy**
Our focus on uncrewed systems with AI capabilities positions FLANQ as a leader in modern maritime solutions.
- ✦ **Sustainable and ethical**
We prioritise Made in Europe, using responsibly sourced, local content - acting with integrity at all times.
